Home Page- Weekly Sampling Schedule

ENCOR Hospital Abstracted Measures Weekly Sampling Schedule		
Saturday Sampling Schedule	Month Sampled	
2nd Saturday of the month	1st Weekly Sampling Run for current month	
3rd Saturday of the month	2nd Weekly Sampling Run for current month	
4th Saturday of the month	3rd Weekly Sampling Run for current month	
5th Saturday of the month (if exists)	4th Weekly Sampling Run for current month	
1st Saturday of 2nd month (if 5th Saturday above exists)	No Sampling Run	
1st Saturday of 2nd month (if 5th Saturday above does not exist)	4th Weekly Sampling Run for previous month	
2nd Saturday of 2nd month	1st Weekly Sampling Run for current month	

Every second week of the current month will see the sampling begin for that month. The current month will be sampled for the next 3 weeks. Sampling will occur 4 times for any given month. For example, September 2019 will be sampled Sept. 14, 21, 28 and October 5, since there is no fifth Saturday in September. Every week ¼ of the expected IPP will be brought into the sample. This process runs at 10 AM EST every Saturday morning.

Monthly True Up

The monthly true up will occur on the 28th of each month for the previous month.

The actual population size of the measure set is assessed. Cases are added if the sample size does not meet the requirement for the corresponding population size. This will run for any measure sets that are set to be sampled weekly. If the sampling requirements have been met, no cases will be added.

Quarterly True Up

Quarterly True Up Date	Quarter
May 30	First Quarter
August 30	Second Quarter
November 30	Third Quarter
March 1	Fourth Quarter

This runs the monthly true up for all three months of the quarter. Cases are added to the sample if the sample does not meet the requirement for the corresponding population. This occurs for all sampling types (weekly or monthly).
