ENCOR for Hospital Abstracted Measures OP-WB-29 Case Replacement

- The PowerPoint presentation is available for download.
- For the presentation, we do use our Demo site. Any information and data exposed are not actual.

- OP-29 (OP-WB-29) requires the sample to not include cases that are not in the denominator.
- These cases DO NOT count towards the denominator or the sample.

Worksheet Measure Category Assignment

Cases that are either Measure Category Assignment B or Ineligible will be replaced in the abstraction automatically.

Not In Population

ToolBar

Questions

Measure Status

29

☐ Incomplete

☒ Not In Pop. (B)

☐ In Measure Pop. (D)

☐ In Measure Pop. (Y)

☐ Continuous (D)

☐ Numerator (E)

☐ Rejected (X)

☐ Not Eligible

Not Eligible

☐ In Measure Pop. (Y)

☐ Continuous (D)

☐ Numerator (E)

☐ Rejected (X)

☐ Not Eligible

OP-WB-29 Deleted Cases

Cases that are deleted from OP-29 will NOT be replaced.

Workflow Audit

The report displays the sampling workflow trail for each Measure Set. The report shows where each measure set is in the sampling process (Selected, Marked for Abstraction, Sampled, etc.) and what actions were taken prior to the current step.

When an OP-29 case is replaced, it will be noted on the Workflow Audit.

Supporting Documentation

The Medisolv Knowledge Center is the source for Hospital for Chart Abstracted Measures documentation. The following articles were referenced in the PowerPoint presentation.
